

SADDLE CUTTER 2

foodmate

Poultry Processing Systems

The Foodmate double blade Saddle Cutter with 2 motors can be used to do a single split of the leg quarters. It can also be adjusted in many ways to cut a strip of up to 5 cm out of the back bone.

The chicken which is hanging on the Foodmate Cut-up line is mounted parallel to the moving direction of the machine, with the breast direction

of the circular knife of the saddle cutter. Because of the movement of the Cut-up line and the help of the rails, the right cut is realized.

The height of the blades can be adjusted by adjusting the spindles, so they can be adjusted according to the size of the bird. It can also be installed on a existing Cut-up lines.
