Poultry Processing Systems

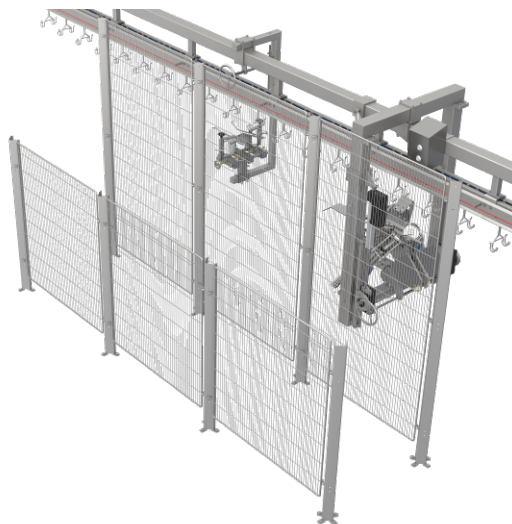

# Competition Line

## Modulaire Fence System

We make it **SIMPLE**

You make it **PROFITABLE**

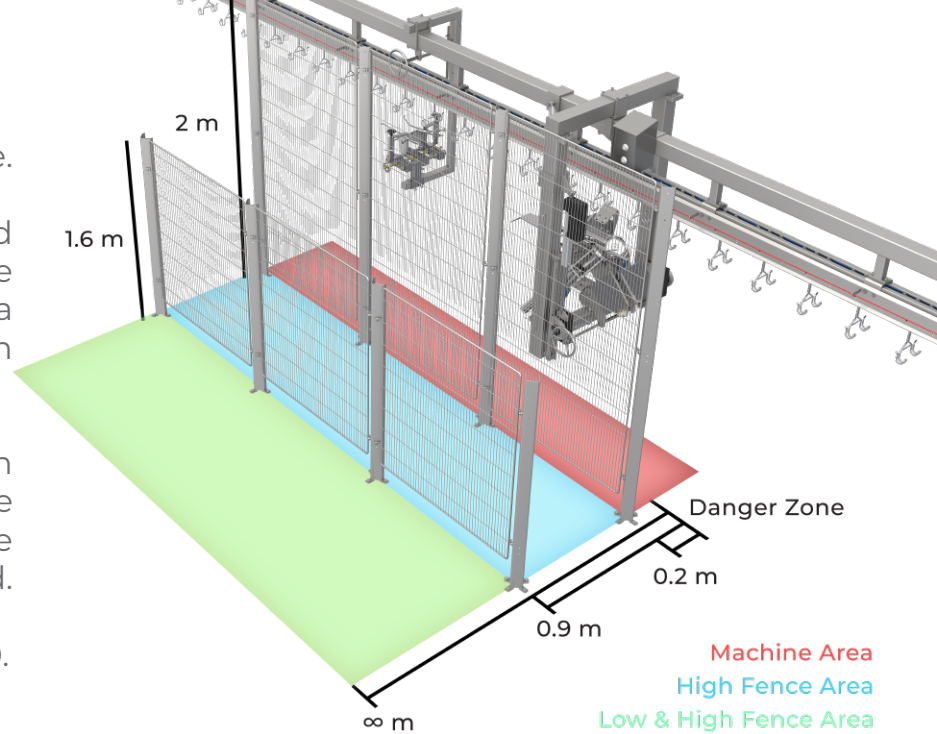

## OPTIONS

2 fence height options are available.

The 2 meter high fence can be placed as close to 20 cm from the outside of the line. The blue and green area show where this high fence option can be placed.

The lower 1.6 meter high fence can be placed as close to 0.9 m from the line. The green area shows where this low fence option can be placed.

Conform the ISO 13857 and ISO 14120.

EXPERIENCE  
YOU CAN  
TRUST

## ADVANTAGES

Hygienic Design // Modulair Design // CE Compliant  
Easy access for cleaning and maintenance

The **Competition Line** is a modular machine fence system for the food industry that meets mandatory hygiene requirements and excels in simplicity in terms of cleaning and safety. It is a complete stainless steel system made of AISI 304. The **Competition Line** system is easy to install and customize. This flexibility ensures that you always get the best possible solution tailored to your needs.

The **Competition Line**: the perfect safety addition to your processing line!
